

Clarissa, I, H.M

# I my school because...

I love my school because they accept me for who I am. And they always try to understand me. Also when I first came to school it wasn't normal for me. I was new and lonely. I had no friends. But the teachers and staffs make me feel not so lonely and more at home. Then they started to come my new friends. They make me feel special. This has been amazing. And I could never ask for a better teacher or classmates. And these are the reasons why they give us a huge opportunity to learn, and this year in 3<sup>rd</sup> grade has been great. I really feel like this is the only school that actually cares about my education. And I think everyone should feel the same way I do. And I think this class is the best because we have so much fun while learning like our literacy center, the drama and so on. And I think our principal is nice and assistant principal are amazing. They let us have free dress Friday. This school is great!
